Introduction

Chattanooga® is the world's largest manufacturer of rehabilitation equipment for treating musculoskeletal, neurological and soft tissue disorders. For over six decades, Chattanooga has set a benchmark for leadership, reliability and excellence. Our products contribute to better treatment outcomes in hospitals, clinics and home settings worldwide. We lead the physiotherapy industry by example and, through continuous innovation, provide real world solutions for clinicians and their patients.

As the world's leading brand in rehabilitation, Chattanooga is sold in over 80 countries worldwide. Chattanooga is directly represented in our key markets but also has long lasting relationships with dedicated distributors in the USA, Canada, Latin America, EMEA and Asia Pacific. Our Chattanooga distributors and customers are supported for order placement, training, product delivery and after sales service by a dedicated team of highly skilled DJO® employees based all over the world.

Chattanooga is a brand of DJO Global, Inc. DJO Global® provides solutions to aid musculoskeletal health, vascular health and pain management. Our products help prevent injuries or rehabilitate after surgery, injury or from degenerative disease, enabling patients to regain or maintain their natural motion.

Treatment Tables

The foundation for any musculoskeletal assessment and treatment is the treatment table. It is also one of the most significant and long standing investments the practitioner will make. The treatment table is one of the foundations of the clinic's style and helps define the atmosphere of the practice. With more than 60 years experience in the rehabilitation arena, Chattanooga® remains the practitioner's partner in design and equipment.

Galaxy[®] Tables

Your table is the core of your practice, and with Chattanooga[®], you have a trusted partner. Every detail of the Galaxy Table range has been designed, engineered and crafted to elegant, exacting standards, delivering a refined experience that maximizes patient comfort while optimizing practitioner access and ease of operation.

Galaxy Tables provide a strong, reliable, stylish and comfortable addition to your clinic. Their slim compact design allows easy access to patients and the scissor lifting frame ensures Galaxy's minimal footprint even when raising patients. Powerful Hallotronic[®] actuators deliver the strength to lift the heaviest of patients, while the optional hydraulic actuation system gives the choice of complete wireless freedom.

Galaxy* 3 Section

Product features:

- Adjustable head section from +40° to -70° with gas spring
- Easy access foot switch, accessible from any position around the table 360°, for simple height adjustment
- Face hole on head section with removable face hole cover
- Adjustable leg section from 0° to 90° with gas spring
- Two-layer padding with non-flammable, bio-compatible and scratch resistant upholstery
- Powder coated, extremely stable scissor steel frame
- 2 side brackets for fixation of stabilization belts and elastic bands
- Traction support sleeves
- Personal Authorization System with 2 safety magnetic keys
- Hallotronic™ +System electric high/low height adjustment from 21 to 40 inches
- Non-slip rubber feet with 1 cm height adjustment allowing leveling of the table
- 4 directional castors with central brake and 4 legs

Montane* Tables

The Montane line is a strong, sturdy, reliable and high quality table that will support your patients and practice for years. Available in a range of color options, Chattanooga® once again offers the practitioner a broad range of real table solutions.

Robust Mechanical Integrity

- Steel frame provides stability during treatment and also during patient transition to and from the table
- Boomerang mechanism provides a smooth vertical lift
- Gas springs assist table adjustment and prevent sudden movements

Quality Design

- Traditional table designed for stability and patient comfort
- A powerful motor provides fast height adjustment
- Easy access foot switch is accessible from any position around the table, making height adjustment easy and convenient
- One movement engages the wheels to move the table or to stabilize it for treatment

Upholstery

Available in 6 fashion colors to complement a variety of settings from contemporary designer trends to classic clinical settings

Easy Table Movement

Includes 4 casters and, with one movement, the wheels engage to move the table or to stabilize it for treatment.

* GALAXY is a table name specific to DJO® tables manufactured by MEDEN-INMED exclusively for DJO

WHAT'S NEW?

Electric Lift Back for Thera-P Electric Treatment Tables

Add comfort and convenience to any clinic or facility with our new electric lift back option. Therapists can easily and precisely make positioning adjustments with the simple push of a foot control pedal or an optional dual foot bar control providing added comfort to patients with mobility concerns.

Our Website

We are pleased to announce the launch of our updated Website!

Aluma Elite Basic Treatment Table with Elevation

Basic just became better with elevation for superior positioning during treatment. Each table leg features an electric hydraulic lift system.

Thera-P Pelvic Health Treatment Table

Designed with an emphasis on improved therapist accessibility and patient comfort, this innovative treatment table results in easier and more effective treatment of pelvic conditions.

Large Pass-Through Aluminum Staircase

A reliable anti-slip platform and treads with an extended number of stairs adds more treatment options for your rehabilitation needs.

Large Convertible Aluminum Staircase

A versatile training tool for patients who are relearning how to walk or climb stairs, the Large Convertible Aluminum Staircase can be used in straight line or corner arrangements, depending on the patient's ability to turn.

Retractable Casters

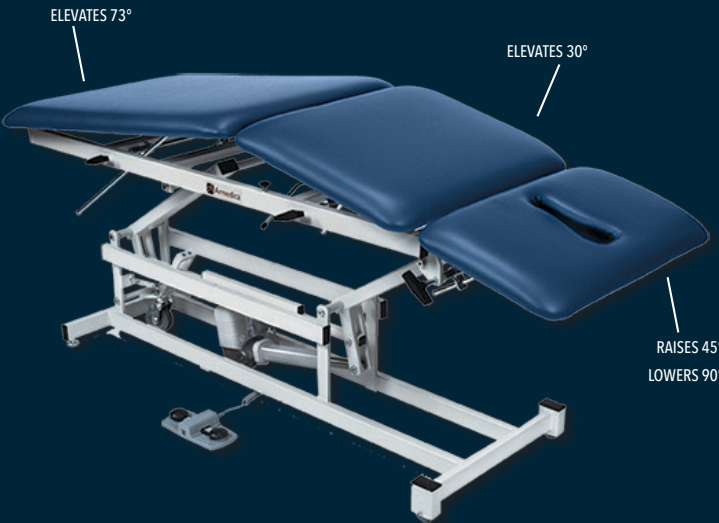

For easy mobility and transport on the Small Aluminum Pass Through and Straight Staircases, retractable casters create a smooth and even ride.

Splint Cart

Designed specifically to provide an organized space for storage of splinting materials, the Splint Cart features vertical cabinet space that locks to keep supplies secure when not in use.

HI-LO TREATMENT TABLES

The image shows the AM-300 Treatment Table, a white metal frame with three blue padded sections. The head section is on the right, the midsection is in the middle, and the foot section is on the left. The table is shown in a partially elevated position. Four callout lines point to specific adjustment points: 'ELEVATES 73°' points to the head section, 'ELEVATES 30°' points to the midsection, 'RAISES 45°' points to the foot section, and 'LOWERS 90°' points to the base of the foot section.

AM-300 Treatment Table

Clinicians appreciate the full height adjustment and section mobility so the patient can be placed in the proper position for maximum results with minimum effort.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- Single foot control pedal
- 1.5" High density foam
- Rounded corners
- White powder coat base
- 34 oz. Heavy-duty vinyl with Permblok 3® bacterial protection
- 3 Section top with manual elevating midsection
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0° to 73°
- Dual front in-line casters with 3rd wheel drop down for easy maneuverability
- ADA Compliant

AM-100 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 1 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Single foot control pedal
- White powder coat base with no casters
- ADA Compliant

This sturdy table allows for full height adjustment using a hands-free foot pedal to make transfers and treatment easy for both the patient and clinician. Topped with 1.5" high density foam and covered in heavy-duty vinyl, the steel-framed power adjustable table includes infection control measures such as Permablok coating and seamless, radiused corners.

AM-150 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 1 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Single foot control pedal
- White powder coat base
- Dual front in-line casters with 3rd wheel drop down for easy maneuverability
- ADA Compliant

Armedica's 400 lb. capacity AM-150 Power Adjustable Treatment Table is a stylish, sturdy table with a power-assisted caster system and a one-section top. It is fully height-adjustable using a hands-free foot control making transfers and treatments easier for both clinician and patient.

AM-200 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 2 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Single foot control pedal
- White powder coat base
- Dual front in-line casters with 3rd wheel drop down for easy maneuverability
- ADA Compliant

The AM-200 offers hands-free mobility with a footswitch control to fully adjust the height of the table while a caster lever bar efficiently lowers the powered caster system for easy mobility. The head section raises 45° and lowers 90° and features a contoured face hole to better accommodate prone patients.

AM-250 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 2 Section top with 3 piece head section
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Armrests range from +45° to -90°
- Single foot control pedal
- White powder coat base
- Dual front in-line casters with 3rd wheel drop down for easy maneuverability
- ADA Compliant

Designed for comfort and control the AM-250 Power Adjustable Treatment Table features a two-section top includes a head section that raises 75° and includes armrests and a face opening for patient comfort. The all-steel welded frame supports a 500 lb. load capacity, and easily adjusts in height with a hands-free footswitch.

AM-350 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 3 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 78°
- Single foot control pedal
- White powder coat base
- Dual front in-line casters with 3rd wheel drop down for easy maneuverability
- ADA Compliant

Three mobile sections make transfers and patient positioning easy. The head section raises 45° and lowers 90°, while the foot section elevates 78°. The stationary middle sections provides stability and adjusts an extra 1" in height for improved ergonomics.

AM-353 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 3 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 78°
- Single foot control pedal
- White powder coat base with no casters
- Non-skid adjustable glides
- ADA Compliant

The AM-353 Power Adjustable Treatment Table features a three-piece top section and a contoured face hole to accommodate prone patients. A convenient foot pedal allows for quick and easy height adjustments making transfers and treatment easier for both the patient and the clinician.

AM-500 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 5 Section top with manual elevating midsection and tilt down armrests
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Armrests ranges from +45° to -90°
- Single foot control pedal
- White powder coat base
- Dual front in-line casters with 3rd wheel drop down for easy maneuverability
- ADA Compliant

An elevating center section provides positional versatility with the AM-500 Power Adjustable Treatment Table. Full section mobility and effortless height adjustments offers more accurate patient positioning and easier transfers for more effective treatment.

AM-550 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 5 Section top with tilt down armrests
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 73°
- Armrests range from +45° to -90°
- Single foot control pedal
- White powder coat base
- Dual front in-line casters with 3rd wheel drop down for easy maneuverability
- ADA Compliant

The AM-550 Power Adjustable Treatment Table offers a solid, 500 lb. load capacity and a five-section top with high density foam and heavy-duty vinyl upholstery coated in Permablok 3®, an antibacterial agent for infection control and easy cleaning.

THERA-P ELECTRIC TREATMENT TABLE

PT1103

Why Use it?

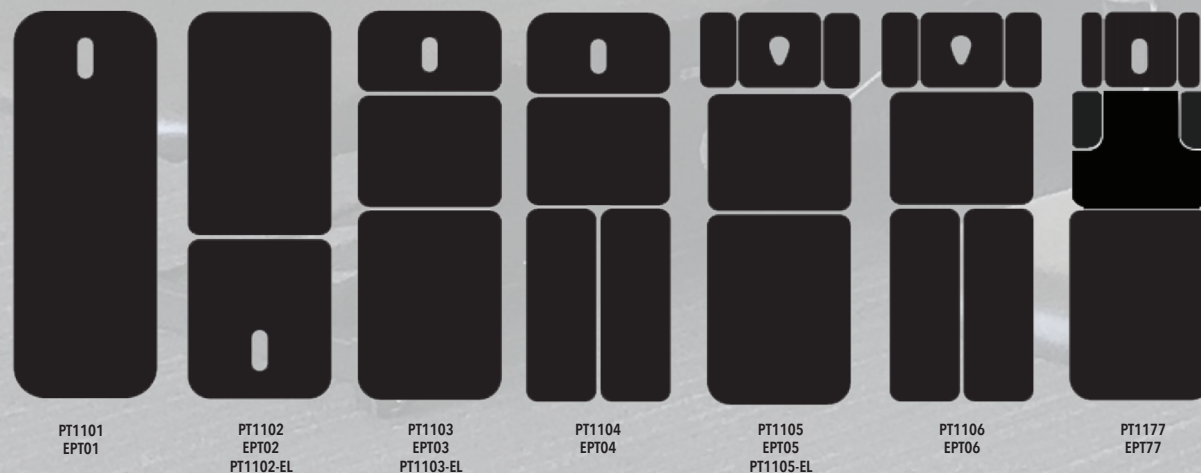

Ease of use, multiple options and a sleek but durable design make the THERA-P line of electric treatment tables the choice of therapists everywhere. Seven top options allow therapists to choose the table that best meets their needs and that ensures patients' most comfortable positioning. The THERA-P electric treatment table is constructed of precision-cut flat and tube steel for durability and style. It also has a whisper-quiet lift system (with elevating foot switch) and easy-to-operate caster system for better ergonomics.

Standard Features:

- Load capacity: 650 lbs.
- 27"W x 77"L x 17-35"H
- Durable and stylish steel base
- White anti-bacterial and anti-microbial powder coat base
- Whisper quiet lift system with single foot control pedal
- Height adjustment: 17-35"
- 27" Wide cushions in 7 different configuration options
- 2" High density foam cushions with rounded corners
- Low profile locking casters
- Head section angle range: +40° to -90° (PT1177: +35° to -45°)
- Lower extremity angle range: 0 to 65° (PT1177: 0-75°)
- Armrest horizontal range: 0 to 45°
- Armrest vertical range: 0 to 7°
- 7 Section configuration includes electric elevating midsection with hand control
- ADA Compliant

AM-234 Bariatric Treatment Table

The AM-234 two-section Bariatric Power Adjustable Treatment Table includes an angle-adjustable head section and a stationary body section that allows for comfortable and precise patient positioning during chiropractic and massage treatment. The backrest section can be raised up to 75° and has a contoured opening for comfortable placement of a prone patient's face.

Standard Features:

- Load capacity: 500 lbs
- 34"W x 76"L x 18-37"H
- 2 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Lower extremity angle ranges from 0 to 75°
- Single foot control pedal
- White powder coat base
- Dual front in-line casters with third wheel drop-down for easy maneuverability
- ADA Compliant

AM-334 Bariatric Treatment Table

The AM-334 Bariatric Treatment Table features an adjustable three section top to ensure simple, comfortable patient positioning. Built for stability, a 500 lb. lifting capacity enables clinicians to safely and easily treat a wide range of patients with full height adjustment to reduce the strain of patient transfers.

Standard Features:

- Load capacity: 500 lbs
- 34"W x 76"L x 18-37"H
- 3 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 70°
- Single foot control pedal
- White powder coat base
- Dual front in-line casters with third wheel drop-down for easy maneuverability
- ADA Compliant

AM-368 Super Duty Bariatric Treatment Table

The AM-368 Bariatric Power Adjustable Treatment Table combines an adjustable three-section top design with a stronger, thicker base and an incredible 800 lb. weight and lifting capacity to accommodate the effortless treatment of bariatric patients. The three section top enables proper patient positioning while power assisted height adjustment allows for easier patient transfers with a convenient foot switch control.

Standard Features:

- Load capacity: 800 lbs
- 36"W x 76"L x 18-37"H
- 3 Section super bariatric top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +40° to 90°
- Lower extremity angle ranges from 0 to 70°
- Hand control
- White powder coat base
- (4) Total locking swivel casters
- ADA Compliant

800 lb Load Capacity!

AM-240 Bobath Treatment Table

A comfortable extended width and a sturdy frame supports a 500 lb. weight capacity as a practical bariatric treatment table with the versatility of a two-section top. A single foot control pedal enables full height adjustment with minimal disruption of treatment.

Standard Features:

- Load capacity: 500 lbs
- 40"W x 76"L x 18-37"H
- 2 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +40° to 90°
- Single foot control pedal
- White powder coat base
- ADA Compliant

AM-340 Bobath Treatment Table

The AM-340 Bobath Treatment Table is a design that combines strength, comfort, and style. The three section top offers full section mobility as well as full height adjustment, so the patient can be properly positioned for maximum treatment results with minimal effort required of the clinician.

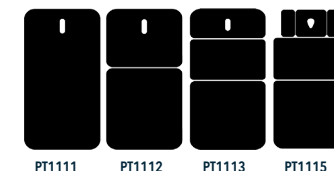

Standard Features:

- Load capacity: 500 lbs
- 40"W x 76"L x 18-37"H
- 3 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +40° to 90°
- Lower extremity angle ranges from 0 to 73°
- Single foot control pedal
- White powder coat base
- ADA Compliant

Treatment Tables

4 Different top configurations

Thera-P™ Bobath Electric Treatment Table

Our bobath model is built strong for larger patients, thanks to precision-cut flat and tube steel. Four top options allow physical therapists to choose the table that best meets their needs and that ensures patients' most comfortable positioning. It also has a whisper-quiet lift system (with elevating foot control pedal) and easy-to-operate caster system for better ergonomics. Softly rounded corners and a layer of thick 2" foam add the finishing touch.

Standard Features:

- Load capacity: 650 lbs.
- 40"W x 77"L x 17-35"H
- Durable and stylish steel base
- White anti-bacterial and anti-microbial powder coat base
- Whisper quiet lift system with single foot control pedal
- Height adjustment: 17-35"
- 40" Wide cushions in 4 different configuration options
- 2" High density foam cushions with rounded corners
- Low profile locking casters
- Head section angle range: +40° to -90°
- Lower extremity angle range: 0 to 65°
- ADA Compliant

LEG & SHOULDER THERAPY (LAST) TABLE

Why Choose It?

Ergonomically designed, the Leg & Shoulder Therapy (LAST) Table with Hi-Lo Elevating Base is the first treatment/exercise table that supports bilateral training and specific anatomical positioning to achieve the desired results for both professional athletes and weekend warriors. The elevating base ensures that even patients with limited mobility have easy access in any setting. While standard treatment tables tend to limit range of motion, the unique design of the LAST table allows for patient positioning and range of motion to perform a wide range of activities using one stable platform. To maximize your efforts as physical therapists, athletic trainers and clinicians, the LAST table is a must for your rehabilitation practice or athletic training rooms.

Patent # 10,857,052

Standard Features:

- Load capacity: 650 lbs.
- 30"W x 84"L x 19-37"H
- Adjustable top with standard elevating base
- White powder coat base
- Whisper quiet lift system
- Height adjustment: 19-37"
- Single foot control pedal
- Elevating back: 0 - 70°
- Elevating legs: 0 - 90°
- Leg height: 17"
- Drop legs: 0 - 90°
- 2" High density foam cushions
- Nose hole
- Rounded corners
- Low profile locking casters
- White anti-bacterial and anti-microbial powder coat base
- ADA Compliant

AM-SP202 Treatment Table with Prenatal Top

The unique design of the AM-SP Series brings the future to you today! Based on a single pedestal approach, the AM-SP Series offers solid stability and loads of leg room and maneuverability for the clinician along with luxurious comfort for the patient. The single pedestal is equipped with our one-step caster system and foot switch at no additional cost and offers a full 27" width top along with a 500 lb. lifting capacity. Because of its unique design, the AM-SP Series operates in a range of 24" from the floor to a maximum height of 35.5". It also elevates with no end shift, so it can be used in a smaller area, saving precious space in your office or treatment room.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 24-35.5"H
- 2 Section top with prenatal cutout
- One-step caster system
- Single pedestal base with white powder coat
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Head section angle ranges from +45° to -90°
- 1.5" High density foam
- Rounded corners
- Single foot control pedal

AM-SP300 Treatment Table

A single pedestal Hi-Lo table base with no end shift provides ample legroom around the table and a comfortable treatment table that is ideal for smaller spaces. The three-section top provides a headrest and footrest for supportive comfort while a convenient foot switch control adjusts the table height effortlessly with interrupting treatment.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 24-35.5"H
- 3 Section top with electric elevating midsection
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Single pedestal base with white powder coat
- Rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 73°
- Armrests range from +45° to -90°
- One-step caster system

AM-SX1000 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 1 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1" High density foam
- Rounded corners
- (4) Total locking casters
- White powder coat base
- Single foot control pedal
- ADA Compliant

A unique x-shaped frame provides exceptional stability while enabling maximum space-usage efficiency for use in smaller spaces. This design enables full height adjustment with no end shift and features a convenient footswitch control for easy height adjustment with minimal treatment operation.

AM-SX2000 Treatment Table

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 2 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1" High density foam
- Rounded corners
- Head section angle ranges from +25° to -80°
- (4) Total locking casters
- White powder coat base
- Single foot control pedal
- ADA Compliant

A unique X-shaped frame provides exceptional stability in smaller spaces. This frame design enables full height adjustment with no end shift, which allows full usability. The smooth, one-section top includes a contoured face opening for more comfortable use with prone patients.

AM-SX3000 Treatment Table with Motorized Center

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 3 Section top with electric elevating midsection
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1" High density foam with rounded corners
- Head section angle ranges from +25° to -60°
- Lower extremity angle ranges from 0 to 70°
- (4) Total locking casters
- White powder coat base
- ADA Compliant

This three-section powered treatment table adjusts in height with a single foot control pedal and includes angle adjustable sections for optimal patient positioning. The head section raises 25° and lowers 60°, while the foot section raises 70°. An electric elevating midsection raises 15° for additional treatment options.

Also Available:
AM-SX3500 Treatment Table with stationary midsection

AM-SX5000 Treatment Table with Motorized Center

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 5 Section top with electric elevating midsection and adjustable armrests
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1" High density foam
- Rounded corners
- Head section angle ranges from +20° to -40°
- Lower extremity angle ranges from 0 to 70°
- (4) Total locking casters
- White powder coat base
- ADA Compliant

AM-SX Series Treatment Tables offer a unique design which will work well in smaller areas in the clinic. This design has exceptional stability, full height adjustment and section mobility. The flexibility of these tables allows the patient to be placed in proper position to achieve maximum results with minimum effort.

BAR ACTIVATED HI-LO TABLES

AM-BA300 Treatment Table

The AM-BA300 Bar Activated Treatment Table combines an adjustable three-section top design with a strong, steel base and an incredible 500 lb. lifting capacity. The three section top enables proper patient positioning with a manual elevating midsection. Power assisted height adjustment allows for easier patient transfers with dual foot bar control.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 3 Section top with manual elevating midsection with 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Steel, white powder coat base with dual foot bar control
- 1.5" High density foam with rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 73°
- Armrests range from +45° to -90°
- (4) Total locking casters
- ADA Compliant

AM-BA150 Treatment Table

The AM-BA150 Treatment Table features a steel frame and an innovative bar-activated control that provides hands-free height adjustment all around the table. A solid, one-piece design with one inch of density foam padding and heavy-duty vinyl upholstery treated with Permablok 3® anti-bacterial coating for patient protection.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1 Section top
- Steel, white powder coat base with dual foot bar control
- 1.5" High density foam with rounded corners
- (4) Total locking casters
- ADA Compliant

AM-BA200 Treatment Table

The AM-BA200 Treatment Table is a strong, versatile treatment table with a convenient hands-free design. Height-adjustable from 18-37" with a unique bar-activated control offers control from all around the table. A simple, 2-section design features a head piece that can be raised up to 45° and lowered to 90°.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 2 Section top with 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Steel base with dual foot bar control
- 1.5" High density foam with rounded corners
- Head section angle ranges from +45° to -90°
- White powder coat base with (4) total locking casters
- ADA Complaint

Also Available:
AM-BA250 - 2 Section top with 3 piece head section

AM-BA134 Bariatric Treatment Table

The AM-BA134 Treatment Table for bariatric patients features a stable, one-section top with a four total locking casters and a fully height-adjustable base using a hands-free dual foot bar control for mobility around the table.

Standard Features:

- Load capacity: 500 lbs
- 34"W x 76"L x 18-37"H
- 1 Section top with 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Steel base with dual foot bar control
- 1.5" High density foam with rounded corners
- (4) Total locking casters
- ADA Complaint

AM-BA350 Treatment Table

Designed with the practitioner in mind, the AM-BA350 combines a strong table base with easy controls and maximum adjustability. A unique bar-activated control design makes it easy to adjust the height of the table from any side and without ever losing contact with your patient.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 3 Section top with 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Steel base with dual foot bar control
- 1.5" High density foam with rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 78°
- Armrests range from +45° to -90°
- White powder coat base with (4) total locking casters
- ADA Complaint

AM-BA234 Bariatric Treatment Table

The AM-BA234 Treatment Table for bariatric patients is built for patient comfort and clinician convenience. Constructed with durable steel support frames and reinforced pivoting joints, this heavy-duty table can accommodate up to 500 lbs. The two section top is divided into head and body sections and can be raised up to 75° for patient comfort.

Standard Features:

- Load capacity: 500 lbs
- 34"W x 76"L x 18-37"H
- 2 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Steel base with dual foot bar control
- 1.5" High density foam with rounded corners
- Lower extremity angle ranges from 0 to 75°
- (4) Total locking casters
- ADA Complaint

AM-BA500 Treatment Table

This 5-Section Mobilization Table is designed for ideal patient positioning and features precise angle adjustments in the head, foot, and center sections. Hands-free height adjustment is a snap with a convenient dual foot bar control to quickly and easily adjusts the table height.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- 5 Section top with manual elevating midsection and tilt down armrests and
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Steel base with dual foot bar control & (4) total locking casters
- 1.5" High density foam with rounded corners

- (4) Total locking casters
- ADA Compliant

AM-BAX1000 Treatment Table

A space-saving x-frame design maximizes small spaces while an innovative bar-activated control enables hands-free height adjustment from anywhere around the table. Constructed with heavy gauge steel, this durable table has a lifting capacity of 500 lbs. to accommodate a wide variety of patients.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 19-38"H
- 1 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Steel base with dual foot bar control
- 1" High density foam
- Rounded corners
- (4) Total locking casters

AM-BAX3000 Treatment Table with Motorized Center

The AM-BAX3000 Hi-Lo Treatment Table showcases an exceptionally stable X-frame design and a bar-activated height control that allows the table's height to be adjusted while the clinician keeps both feet on the floor and both hands on the patient.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 19-38"H
- 3 Section top with electric elevating midsection
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- Steel base with dual foot bar control and (4) total locking casters
- 1" High density foam with rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 73°
- Armrests range from +45° to -90°

Also Available: AM-BAX2000, AM-BAX2500, AM-BAX3500,
AM-BAX4000, AM-BAX5400, AM-BAX5500

PELVIC HEALTH TREATMENT TABLES

AM-BAX5600

This control is easily accessed on either side of the table allowing the clinician to effortlessly re-position the patient during any procedure. The top surface is designed to allow the clinician optimal access during various manipulation therapies. The fully adjustable patient legrest may be used on either side to help stabilize the patient and facilitate better interaction during treatment.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 72"L x 19-38"H
- 34 oz. Heavy-duty vinyl with Permablok 3[®] bacterial protection
- 1" High density foam
- Rounded corners
- (4) Total locking casters
- Head section angle ranges from +25° to -45°
- Lower extremity angle ranges from 0 to 75°
- Steel base with dual foot bar control
- White powder coat base

Thera-P Pelvic Health Treatment Table

This innovative table is designed for treating pelvic health patients with an emphasis on improved therapist accessibility and patient comfort resulting in easier and more effective treatment of pelvic conditions. Side cutouts allow the therapist to get close enough for optimal care but leave ample room for patient comfort.

Standard Features:

- Load capacity: 650 lbs.
- 30"W x 77"L x 17-35"H
- Durable and stylish steel base with white powder coat finish
- Whisper quiet lift system with single foot control pedal
- Single, sliding, adjustable stabilization arm - removable for use on either side of table
- 2" High density foam cushions with rounded corners
- Low profile locking casters
- Head section angle range: +40° to -90°
- Lower extremity angle range: 0 to 65°
- Armrest horizontal range: 0 to 45°
- Armrest vertical range: 0 to 7"
- 5 Section configuration includes electric elevating midsection with hand control
- ADA Compliant

CHANGING TABLES

AM-SX1060 Changing Table

The AM-SX1060 Hi-Lo Changing Table with Side Rails features motorized height adjustment with no horizontal travel for easy patient transfers and less strain on the caregiver. This changing table is designed with the caregiver in mind providing a full height adjustment from 18-37".

Standard Features:

- Load capacity: 500 lbs
- 25"W x 60"L x 18-37"H
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- 1 Section top with side rails
- Rounded corners
- Single foot control pedal
- White powder coat base
- ADA Compliant

Also Available:
AM-SX1072 25"W x 72"L

ELEVATING THERAPY TILT TABLES

The Elevating Therapy Tilt Table is ideal for nursing home and rehabilitation facility use. Smooth and secure elevation adjusts from 22.5-39.5" high, and tilts from a horizontal position to 90°. A heavy-duty powder coat frame supports a load capacity of 350 lbs. and includes an extra-large foldaway foot plate with non-skid surface and dual safety straps for added stability. The 2" high density foam cushions with two configurable options are designed for patient comfort.

Standard Features:

- Load capacity: 350 lbs.
- 27"W x 82"L x 22.5-39.5"H
- (2) Safety straps
- Extra large foldaway foot plate with non-skid tape
- Hand control for tilt
- Single foot control for lift
- Nose hole with plug
- (4) Individual locking casters

HY1002

TRACTION TABLES

AM-400 Traction Table

The AM-400 offers a four-section top with full section mobility for total positional adjustment. For additional adjustability, the lumbar section separates up to five inches from the sections on either side of it and rolls along a track for easy, supportive adjustment. Traction device sold separately.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- Overall length: 99"
- 4 Section top with 3 piece head section
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 80°
- Single foot control pedal
- White powder coat base
- ADA Compliant

AM-420 Traction Table

The AM-420 features two top sections for patient mobility and a convenient lower shelf and machine stand to keep everything you need within easy reach. The table rests on non-skid adjustable glides for perfect stability and support during treatment, and has a weight capacity of 400 lbs. to better accommodate patients.

Standard Features:

- Load capacity: 400 lbs
- 27"W x 76"L x 30"H
- Fixed section: 34" x 27"
- Rolling section: 42" x 27"
- Upholstered storage shelf
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Non-skid adjustable glides

See page 75 for Flexion Stools

AM-450 Traction Table

The AM-450 Traction Table supports each part of the body individually for maximum patient comfort and therapy efficiency. Constructed in four sections, this traction table includes 6 pieces plus an additional machine stand for a total of 7 pieces. The 3-piece head section features a contoured face rest with opening to accommodate prone patients and includes two comfortable armrests. The entire table is height-adjustable from 18-37" with a single foot control pedal for efficient adjustment.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- Overall length: 99"
- 6 Section top with 3 piece head section
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 80°
- Single foot control pedal
- White powder coat base
- ADA Compliant

AM-SP400 Treatment Table

A single pedestal base is equipped with a one-step caster system and footswitch control for simple operation and mobility all around the table. Fully height-adjustable, the AM-SP400 Single Pedestal Hi-Lo Treatment Table elevates with no end shift, saving precious space in smaller spaces.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 24-35.5"H
- Overall length: 99"
- 4 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 80°
- Single foot control pedal
- White powder coat base

AM-BA400 Traction Table

The AM-BA400 features a four-section top for full section mobility to enable proper patient positioning and better treatment results. An innovative bar-activated control system effortlessly adjusts the height to be adjusted from anywhere around the table for uninterrupted treatment.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- Overall length: 99"
- 4 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam with rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 80°
- White powder coat base with dual foot bar control
- ADA Compliant

AM-BA450 Traction Table

The AM-BA450 Treatment Table is fully adjustable with a six-section top allowing for maximum positional alignment and patient control. The top section is divided into the head section, armrests, thoracic section, lumbar section, foot section, and machine stand and features a heavy duty steel bar-activated control system that improves access from all sides of the table.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- Overall length: 99"
- 6 Section top with 3 piece head section
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam with rounded corners
- Head section angle ranges from +45° to -90°
- Lower extremity angle ranges from 0 to 80°
- White powder coat base with dual foot bar control
- ADA Compliant

AM-SX4000 Traction Table

A four-section top enables better patient positioning and increased treatment versatility. The AM-SX4000 incorporates a convenient machine stand compatible with any traction device for better overall results. Power height adjustment is controlled with an easy-to-use foot control pedal for hands-free operation.

Standard Features:

- Load capacity: 500 lbs
- 27"W x 76"L x 18-37"H
- Overall length: 94"
- 4 Section top
- 34 oz. Heavy-duty vinyl with Permablok 3® bacterial protection
- 1.5" High density foam
- Rounded corners
- Single foot control pedal
- White powder coat base
- ADA Compliant

THERA-P™ TRACTION TABLE

Comprised of 4 or 6 sections, the Thera-P Traction Tables use electric power to help with manual adjustment, allowing for ease of use and control of table positioning. For the practitioner, the Thera-P Traction Table offers a 20-37" full height adjustment and section mobility so the patient can be placed in the proper position for maximum results with minimum effort. Each section is adjustable, providing numerous achievable patient positioning options.

HOW IS SPINAL DECOMPRESSION DIFFERENT FROM TRACTION?

Regular traction stretches your spine and muscles simultaneously. But if you only stretch the spine, your body naturally “braces” for the next stretch, limiting the effectiveness of the treatment. The “overall stretching” commonly used in traction can also trigger painful muscle spasms. Decompression therapy is different from conventional spinal traction because it alternates between stretching and relaxation. The relaxation stages trick your body into staying relaxed and therefore maximizes the load and the effectiveness of the treatment.

Decompression tables should also allow your doctor or therapist to target your treatment area in three different dimensions. This allows practitioners to target their treatment by isolating specific spinal discs, compared to traction, which often just “stretches” the entire spine. Your health care provider should also be able to completely customize your decompression treatment by changing the amount of stretch (load); the number of stretches/relax stages; the time it takes to reach each peak stretch/relax stage; and many other settings. These options allow them to personalize the session for your age, weight, and condition and to adjust your treatments as they track your results.

- Lifting capacity: 350 lbs.
- Cervical capture headpiece
- User-defined treatment hold and relax times
- Speed control for optimal decompression
- Pre-programmed lumbar and cervical decompression protocols
- Electric elevation range: 21- 29°
- Lateral flexion positioning and axial rotation
- Real-time digital treatment tracking
- Traction belting system enhances restraint

Digital Command Center includes:

- Specific vertebral targeting
- Interactive color display
- Separate lumbar and cervical traction/decompression programming
- Continuous readout and graphing of treatment parameters
- Reference library - including patient setup and training materials

E9011-B

DOC Decompression Table

The DOC Decompression Table takes your chiropractic practice to the next level with its unique design and impressive list of standard features. The state-of-the-art digital command center controls specific vertebral targeting, including axial rotation and lateral flexion; correctly positions patients in antalgic posture; offers separate lumbar and cervical decompression programming; and delivers continuous readout and graphing of treatment protocols. The digital command center also controls table elevation and rear flexion, all at the push of a button. Patients may be treated in supine or prone positions and from various angles.

Standard Features:

- Lifting capacity: 350 lbs.
- 30"W x 77"L x 21"H
- Electric elevation range: 21- 29°
- Lateral flexion positioning and axial rotation
- Cervical capture headpiece
- Traction belting system enhances restraint for optimal decompression

HI-LO TREATMENT CABINETS

ME2000 Elevating Treatment Table

With its quiet and smooth elevation, this elevating treatment table delivers better ergonomics for the therapist and comfort for the patient. The table height ranging from 24-36" allows patients easy access to the table with just a press of the foot pedal.

Standard Features:

- Load capacity: 400 lbs.
- 28"W x 77"L x 24-36"H
- Height range: 24-36"
- Flat 2" high density foam cushion with nose hole and rounded corners
- Steel base with white powder coat
- (1) Foot pedal
- (2) Sliding doors on each side of table
- Nose hole included

ET Treatment Cabinet

The ET Treatment Cabinet sets the standard in functionality, ease of use, storage and convenience. With an easy-to-operate adjustable height ranging from 29-44", and the numerous cabinet and top options, this cabinet serves most therapists' needs.

Standard Features:

- Load Capacity: 500 lbs.
- 30"W x 83"L x 29-44"H
- Durable metal cabinet with black powder coat
- Leveling feet on cabinet base
- 2" casters for easy movement
- (1) Mounted hand control
- Quiet and smooth lift columns elevate athletes with ease
- 2" High density foam flat, seamless cushion
- Rounded corners
- Door locks included
- Fixed height (32") treatment cabinets also available
- Multiple configurations available

ME2001 Bariatric Elevating Treatment Table

With a wider top, the ME2001 provides the flexibility to work with a larger patient without taking away comfort. The sleek white powder coat steel base gives a polished and sophisticated look while providing storage.

Standard Features:

- Load capacity: 400 lbs.
- 40"W x 84"L x 24-36"H
- Height range: 24-36"
- Whisper quiet lift system
- (1) Foot pedal
- Rounded corners
- (2) Sliding doors on each side of table

6 THINGS TO CONSIDER WHEN CHOOSING A TREATMENT TABLE

Treatment tables serve a variety of purposes and are often the most used piece of furniture in certain settings. Because of the daily use these tables get, it's important to consider and understand a couple things before you make your purchase.

1. DURABILITY - Treatment and therapy tables need to be able to withstand the daily use that is required of them. They also need to be able to endure the rigors of certain treatments. PHS Medical carries multiple treatment tables in different hardwoods and also a table constructed of aluminum. These sturdy materials provide a lifetime of use

as well as minimal (if any) maintenance. The H-Brace and 6-Leg construction of some of PHS Medical's tables eliminates tipping and wobbling. These configurations reinforce the bottom frame to stay steady when weight is applied to the table. Because of all the daily use treatment tables get, it is nice to have a table(s) with a warranty in place. If anything were to happen to your PHS Medical treatment table, the fix could potentially be covered by our warranty (outlined to the right).

2. EASY TO USE AND MAINTAIN - An important factor of a treatment table is its ease of use. Tables that can be adjusted effortlessly are ideal. Clunky mechanisms that make noise can be extremely distracting for patients. PHS Medical offers tables with manual lift back adjustments that are smooth and easy to use. Upholstery that is easy to care for is also a plus. Keeping your tables clean will help them stay in good shape as well as sanitary for each patient.

3. SIZE - Every physical therapy setting is unique and has different size parameters based on space available and patient type. A smaller table can be geared toward pediatric patients while a wider table can be more accommodating for larger patients. PHS Medical has treatment tables that are available in a variety of different sizes to meet your needs.

4. STORAGE CAPABILITIES - Treatment tables that have storage space are ideal for facilities that see multiple patients a day and offer a variety of different treatments. Storage options are convenient for tools, machines, bolsters/pillows and cleaning supplies that all get used in that specific area or table. PHS Medical has numerous storage options available. From an open shelf to pull-out drawers, you can choose the storage configuration that is right for your practice.

5. PATIENT-FRIENDLY - It is a good idea to think about your patients when you are looking at treatment tables. Keeping them safe and comfortable should be a top priority. PHS Medical offers patient-friendly options on some of their treatment tables that include nose-hole cushions, adjustable lift backs, rounded cushion corners and high density foam cushions.

6. APPEARANCE - Whatever your facility's colors or style, you should consider tables that match and complement its color scheme. PHS Medical has a variety of upholstery and stain colors to choose from as well as custom branding options like logo slip covers and custom logo cushions available on certain tables.

When choosing treatment tables for your space, it is important to choose tables that are best suited for your specific needs. PHS Medical offers a variety of treatment table styles, options and price points.

PHS Medical Treatment Table

- Elevation option: hand control is mounted on one side
- Graphics package: includes (1) school logo/name decal on each tape holder (1 on each end) (Only available with storage shelf option)
- Model Shown: A4520-EL with options
- Foot control option available

Sizes Available:

A4495-EL - 48"W x 84"L x 21-31"H
A4520-EL - 60"W x 84"L x 21-31"H
A4525-EL - 72"W x 96"L x 21-31"H

PT2000 Bariatric Hi-Lo Mat Table

The PT2000 Bariatric Hi-Lo Mat Table is ideal for the rehabilitation setting and is available in a range of sizes to provide your facility with the option of delivering optimum care for larger patients.

Standard Features:

- Load capacity: 1000 lbs.
- Available in 4'x7', 5'x7' and 6'x8' configurations
- Height range: 18-33"
- Durable steel base with powder coat finish
- 1.5" High density foam cushion
- Rounded corners
- Single foot control
- Convenient drop down casters
- ADA Compliant

WALL MOUNT MAT TABLES

Wall Mount Mat Table

The Wall Mount Mat Table is a fold out mat table ideal for small spaces. A platform attaches to the wall in the back, while the three front legs and cushion fold out away from the wall when needed.

Standard Features:

- Load capacity: 450 lbs.
- Solid hardwood frame and legs
- 3/4" Plywood top
- 1.5" High density foam flat cushion
- Rounded corners
- Triple-bolted leg assembly
- 10" Depth when folded
- ADA Compliant

Sizes Available:

WMMT-4884 - 48"W x 84"L x 19"H

WMMT-6084 - 60"W x 84"L x 19"H

Aluma Elite Wall Mount Mat Table

The Aluma Elite Wall Mount Mat Table is a fold out treatment table ideal for small spaces. The table is constructed of durable aluminum with a flat 2" high density foam cushion. Three legs attach to the wall, while the two front legs and cushion fold out away from the wall when needed. A durable wall mounting plate is included (wall fasteners not included).

Standard Features:

- Load capacity: 600 lbs.
- 48"W x 84"L x 18"H
- Durable aluminum construction
- Tough powder coat finish
- 2" High density foam
- Wall mounting plate
- ADA Compliant
- Model Shown: WM1001

REHAB/RECOVERY EQUIPMENT

Deluxe Stretch Table

Our Deluxe Stretch Table is perfect for Stretch Therapists to perform passive, resistive, PNF, dynamic, and manual muscle manipulation for their patients. The 2" high density foam is durable and will prevent patients from sinking into the cushion, which limits their flexibility. The 700 lb. load capacity allows both the therapist and patient to be full weight bearing on the table without compromising the stability of the table.

Standard Features:

- Load capacity: 700 lbs.
- 34"W x 78"L x 22"H
- Available in wood or laminate
- Glue and dowel construction
- 2" High density foam cushion
- Rounded corners
- Black toe-kick plate
- Storage area on one side
- Divided cubby section (one end only)
- One adjustable shelf in center section of divided end cubby

DST-7834

HAND THERAPY TABLES

AM-630 Hand Therapy Table

Standard Features:

- Load capacity: 200 lbs
- 16"W x 31"L x 23-33"H
- Adjustable height
- Laminated top

The AM-630 Adjustable Height Hand Therapy Table is a specialized, easy-to-use base for hand therapy. The 16" wide top is ideal for easy interaction between therapist and patient, better facilitating hand therapy than a regular table by removing the need to reach and stretch across to reach the patient.

HT100 Hand Therapy Table

Standard Features:

- Load capacity: 264 lbs
- 48, 60 or 72"W x 24 or 30"D x 23-49"H (Sit or stand)
- Electrical elevation: 23-49"H
- Charcoal finish on base
- A wide base provides improved accessibility for all clients
- (4) Leveling feet
- Anti-collision safety feature
- Hand control with:
 - Constant smooth movement and soft start/stop
 - (3) Programmable memory locations
 - (2) USB ports
- Battery option available
- Pre-assembled frame kits significantly reduces installation time
- Designed for therapy and rehabilitation

TOP CONFIGURATIONS:

The HT100 height-adjustable hand therapy table delivers an effortless transition at the touch of a button. Powerful dual motors lift quickly and quietly from 23-49"H in seconds, while three programmable memory presets save time and energy.

HT1700 Hand Therapy Table

Standard Features:

- Load capacity: 154 lbs.
- 36" Diameter or 36"W x 36"D x 23-49"H (Sit or stand)
- Electrical elevation: 23-49"H
- (4) Leveling feet
- Battery option available
- Charcoal finish on base
- Anti-collision safety feature
- Hand control with:
 - Constant smooth movement and soft start/stop
 - (2) USB ports
 - (3) Programmable memory locations
- Pre-assembled frame kits significantly reduces installation time
- Designed for therapy and rehabilitation

TOP CONFIGURATIONS:

The HT1700 Hand Therapy Table helps to manage productivity and comfort. A convenient hand control provides effortless sit to stand capability in a matter of seconds. Designed for smaller spaces, with a variable height range adjusting from 23 up to 49", you can go from small to tall, and anywhere in between.

HT1900 Hand Therapy Table

Standard Features:

- Load capacity: 176 lbs.
- 36 or 42" Diameter, 36" x 36", 48" x 36" or 52" x 42" x 28-48"H (Sit or stand)
- Electrical elevation: 28-48"H
- (5) Top configurations
- Designed for therapy and rehabilitation
- Charcoal finish on base
- (4) Leveling feet
- Battery option available
- Anti-collision safety feature
- Hand control with:
 - Constant smooth movement and soft start/stop
 - (3) Programmable memory locations
 - (2) USB ports
- Pre-assembled frame kits significantly reduces installation time

TOP CONFIGURATIONS:

Choose versatility on the go with the HT1900 Hand Therapy Table. Optional locking casters promote easy mobility along with constant, smooth elevation to just the right height. Five top configurations, multiple table sizes, and a variety of colors to choose from gives you the choice to invest in the way you work best to change your workday.

PARALLEL BARS

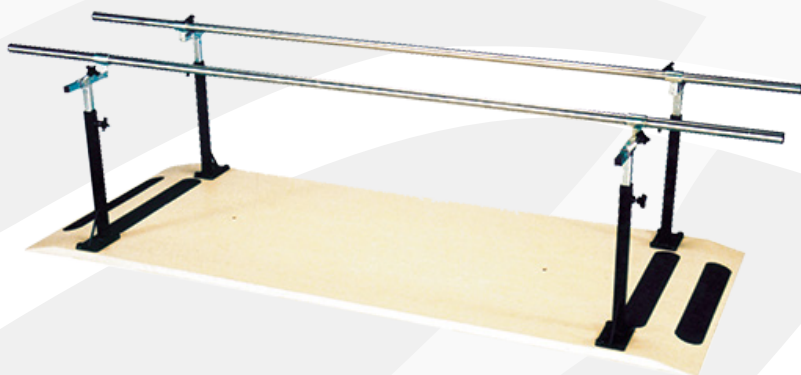

AM-TM700 Parallel Bars

Pair the rehabilitative reliability and versatility of platform mounted parallel bars with cutting edge technology to provide a therapy tool that will give you everything you need. A conveniently located digital display shows the exact bar height for the most accurate height adjustment available with four memory preset buttons that allow the storage and recall of four separate bar height settings.

Standard Features:

- Load capacity: 500 lbs
- 15-29"W x 120"L x 27-52"H
- Platform: 43"W x 120"L - 15-29"W between columns
- Stainless steel hand rails (1.5" Diameter)
- Digital display on conveniently located, user-friendly control panel shows exact bar height
- Memory buttons allow storage and recall of four separate bar height settings
- Microprocessor control unit ensures synchronous operation of all four columns
- Height monitoring functions ensure reliable operation and safe switch-off in case of a fall
- Slip-resistant platform

AM-710 Parallel Bars

Available in two different lengths, Platform Mounted Parallel Bars with stainless steel handrails feature a stable, slip-resistant laminated base for improving muscular strength, control, and range of motion. The parallel bars adjust manually in both height and width and lock into place with Posi-Lok locking knobs.

Standard Features:

- Load capacity: 500 lbs
- 15-29"W x 84" or 120"L x 26-44"H
- Stainless steel hand rails (1.5" Diameter)
- Posi-Lok locking knobs

AM-712 Parallel Bars

Floor Mounted Parallel Bars are in invaluable addition to any therapy area. Available in either 7-foot or 10-foot length and with adjustable height and width, this set of parallel bars is a physical therapy standard that can be customized to your treatment area and patients.

Standard Features:

- Load capacity: 500 lbs
- 120"L x 26-44"H
- Stainless steel hand rails (1.5" Diameter)
- Posi-Lok locking knobs
- Mounting hardware not included

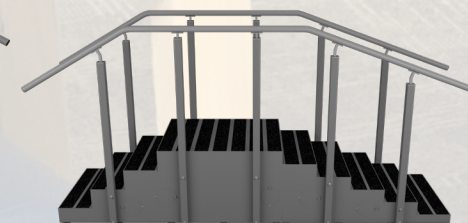

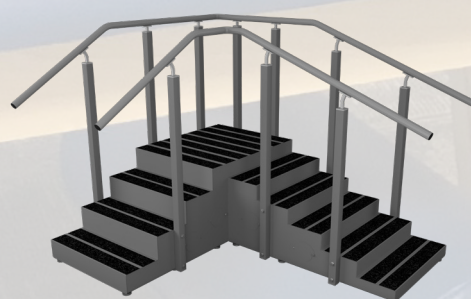

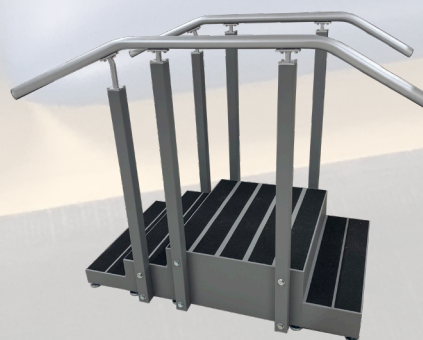

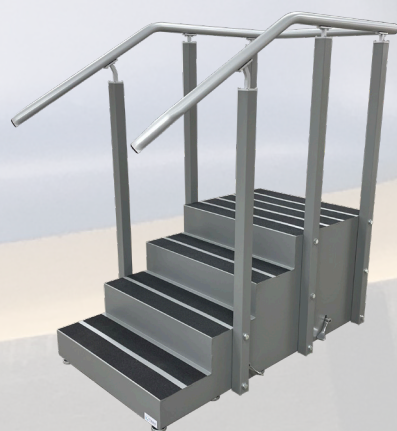

STAIRCASES

**Caster Add-On Option for
Aluminum Staircases**

**Available on Straight and Small Pass
Through**

Model Number: PTST-1000

Straight Aluminum Staircase

Standard Features:

- Load capacity: 600 lbs.
- Welded aluminum construction
- Anti-bacterial & anti-microbial dusty gray powder coat finish
- Handrails have smooth finish
- Uprights are made from 2" square aluminum extruded tube
- Anti-slip safety tread on platform and all steps for increased safety
- 9' Ceiling height required
- Ships fully assembled

Small Pass Through Aluminum Staircase

Standard Features:

- Load capacity: 600 lbs.
- Welded aluminum construction
- Anti-bacterial & anti-microbial dusty gray powder coat finish
- Handrails have smooth finish
- Uprights are made from 2" square aluminum extruded tube
- Anti-slip safety tread on platform and all steps for increased safety
- 9' Ceiling height required
- Platform: 30"W x 24"D x 12"H
- (2) 30"W x 10"D x 4"H Steps
- (1) 30"W x 10"D x 6"H Steps
- Overall: 35"L x 61"D x 47.5"H
- Ships fully assembled

Large Corner Aluminum Staircase

Standard Features:

- Load capacity: 600 lbs.
- Welded aluminum construction
- Anti-bacterial & anti-microbial dusty gray powder coat finish
- Handrails have smooth finish
- Uprights are made from 2" square aluminum extruded tube
- Anti-slip safety tread on platform and all steps for increased safety
- 9' Ceiling height required
- Platform: 36"W x 36"D x 24"H
- (5) 36"W x 10"D x 4"H Steps
- (3) 36"W x 10"D x 6"H Steps
- Overall: 92"L x 72"D x 60"H

Large Pass Through Aluminum Staircase

Standard Features:

- Load capacity: 600 lbs.
- Welded aluminum construction
- Anti-bacterial & anti-microbial dusty gray powder coat finish
- Handrails have smooth finish
- Uprights are made from 2" square aluminum extruded tube
- Anti-slip safety tread on platform and all steps for increased safety
- 9' Ceiling height required
- Platform: 36"W x 36"D x 24"H
- (5) 36"W x 10"D x 4"H Steps
- (3) 36"W x 10"D x 6"H Steps
- Overall: 41"L x 123.5"D x 60"H

Convertible Wood Staircases

Standard Features:

- Load capacity: 350 lbs. (Maple Laminate) & 450 lbs. (Birch)
- Stairs can be configured as a straight or corner unit
- Platform: 30"W x 30"D x 24"H
- (4) 30"W x 9"D x 6"H steps and (6) 30"W x 9"D x 4"H steps
- Handrails are made from solid hardwood (shipped ready to assemble)
- Uprights are made from 2" steel with a black powder coat finish
- Stairs are available in wood or laminate finishes
- Anti-slip safety tread on platform and all steps for increased safety
- 9' Ceiling height required

Pass Through Wood Staircases

Standard Features:

- Load capacity: 350 lbs. (Maple Laminate) & 450 lbs. (Birch)
- Platform is 30"W x 24"D x 12"H
- (2) 30"W x 9"D x 6"H steps and (3) 30"W x 9"D x 4"H steps
- Handrails are made from solid hardwood (shipped ready to assemble)
- Uprights are made from 2" wide steel with a black powder coat finish
- Stairs are available in wood or laminate finishes
- Anti-slip safety tread on platform and all steps
- 8' Ceiling height required

Straight Wood Staircases

Standard Features:

- Load capacity: 350 lbs. (Maple Laminate) & 450 lbs. (Birch)
- Platform is 30"W x 24"D x 24"H
- (4) 30"W x 9"D x 6"H steps
- Handrails are made from solid hardwood (shipped ready to assemble)
- Uprights are made from 2"W steel with a black powder coat finish
- Stairs are available in wood or laminate finishes
- Anti-slip safety tread on platform and all steps for increased safety
- 9' Ceiling height required

About Staircases

Training staircases require patients to balance on and activate one leg at a time briefly before moving on to the next step. Because sloped movement is considered one of the most difficult movements for those relearning how to walk, and negotiate stairs in physical therapy, training stairs and ramps are important tools in the rehabilitation protocol. Choose from aluminum or wood, and pass through, convertible, or straight designs to meet the needs of your patients and facility.

WORK CONDITIONING & AMBULATION TRAINING

Lift Boxes

The PHS Medical Lift Boxes are designed for patients undergoing physical therapy and rehabilitation. Made with hardwood plywood construction, they are robust and can handle a 100 lb. load capacity. The Lift Boxes feature four handgrip slots, two on each side, for hassle-free handling. Our four lift boxes vary in both size and shape and are perfect for rehabilitative patients to gain confidence and strength by performing a variety of workplace related tasks.

Standard Features:

- Load capacity: 100 lbs.
- Hardwood plywood construction
- Two hand grips on each side

Plyometric Boxes

Standard Features:

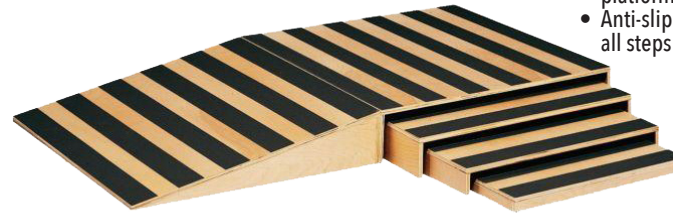

- Load capacity: 1,000 lbs.
- Hardwood plywood construction
- 3 Different height options available
- Pre-drilled holes
- Interlocking joints
- Reinforced internal support on larger plyo box
- Sanded edges for safety
- Boxes ship unassembled

Our 3 in 1 wooden plyometric boxes are built out of hardwood plywood, and designed for strength and endurance training. Each box provides 3 different height options for you to choose from. Simply flip the box to a different side and you're ready to go.

Ramp and Curb Training Set

Standard Features:

- Load capacity: 350 lbs.
- 84"W x 44"W x 8"H
- Hardwood plywood construction
- Adjustable curbs store beneath platform
- Anti-slip safety tread on platform and all steps for increased safety

The PHS Medical Ramp and Curb Training Set is the perfect product for smaller clinics limited in space or for larger clinics who need to add more ambulation training to the therapy floor.

Nested Foot Stools

Standard Features:

- Load capacity: 350 lbs.
- Overall: 16"W x 20"L x 8"H
- Hardwood plywood construction
- Anti-slip safety tread on platform for increased safety

The PHS Medical Nested Foot Stools (set of 4) nest for easy, convenient storage.

Rolling Step

Standard Features:

- Load capacity: 300 lbs.
- 30"W x 30"L x 8"H
- Hardwood plywood construction
- Anti-slip safety tread on platform for increased safety

The PHS Medical Rolling Step is great for busy clinics or rehabilitation centers with minimal space.

Lift & Place Rack Station

Standard Features:

- Load capacity: 100 lbs. per shelf
- 30"L x 18"D x 78"H
- Hardwood plywood construction
- Simulates lifting and loading tasks
- (2) Adjustable shelves

This occupational therapy tool is used to simulate lifting and loading tasks. The Lift & Place Rack Station features two adjustable shelves to help accommodate various lifting device sizes. It also works well with the PHS Medical work conditioning lift boxes.

Shovel Station

Standard Features:

- 36"W x 72"L x 60"H
- Hardwood, plywood construction
- (3) Angled gravity flow shelves
- Folding side keeps sand in place
- (4) Safety treads
- Bumper edges
- Plastic shovel and storage hook included

The PHS Medical Shovel Station is ideal for improving strength and increasing range of motion. The three angles and gravity flow shelves allow material to fall to the base. The multiple shelf heights allow a varied range of motion for arms, shoulders, legs and back. This simulates on-the-job duties, easily permitting the therapist to evaluate a patient's performance.

Wooden Calf Stretcher

Standard Features:

- Load capacity: 400 lbs.
- 17"W x 13"L x 12"H
- Fully adjustable inclined slant board
- Hardwood plywood construction
- Adjusts to four different angle levels: 10°, 20°, 30°, 40°
- Anti-slip safety tread
- Rubber bottom keeps the bottom of the stretching instrument from slipping during use

Easy to use right out of the box, the incline stretch board is lightweight, portable and features an anti-slip safety tread on the bottom for optimal stability.

Portable Mirrors

Standard Features:

- Portable full length mirror
- 24"W x 20"D x 72"H
- Distortion free glass
- 2" Casters
- Laminate or wood options available

The Portable Mirror is specifically designed with distortion free glass and is available with a single or double-sided 72" mirror. It can be moved around your facility hassle-free with its 2" swivel casters to accommodate treatment needs.

Weight Sled

Standard Features:

- Overall dimensions: 20"W x 46"L x 33-45"H
- Base: 20"W x 28"L x 9" h
- Hardwood construction
- T-Handle adjusts from 33" to 45"
- Removable weight holder
- Push, pull, or drag this sled to help condition and strengthen the body

Designed for work simulation, the adjustable weight sled promotes everyday push/pull activities. Conveniently adjust the resistance level by adding weights to strengthen the shoulders, backs, hips, thighs, and calves. The adjustable sled features a hardwood, anti-friction base that adapts to a variety of surfaces and comfortable, foam coated hand grips. It comes standard with four removable weight holders and an adjustable t-handle frame. Weights sold separately.

WHIRLPOOL TABLES

Stor-Edge Whirlpool Table

Solid, well-built whirlpool tables provide ease for practitioner and patient when administering hydrotherapy. Our Stor-Edge™ whirlpool tables feature a solid hardwood frame, marine grade fasteners, adjustable glider feet on legs. Available in a single or double option built to fit your specific whirlpool brand.

Standard Features:

- Load capacity: 400 lbs.
- Single: 55"W x 44"L x 32"H
- Double: 85"W x 36"L x 32"H
- Solid hardwood frame
- Marine grade fasteners
- Adjustable glider feet on legs
- Available in Single, Double and Custom Configurations

Model Shown:
WTP-101

Aluma Elite Whirlpool Table

The Aluma Elite Whirlpool Table is built to handle the harshest environments. With a rugged aluminum frame that maintains its structure and integrity, the whirlpool table top and seats are made of a durable phenolic material that holds up in wet environments. Our whirlpool tables come standard with a shelf and are available in single or double tub configurations. Custom graphics are included on both ends of the table.

Standard Features:

- Load capacity: 600 lbs.
- Single: 46"W x 38.25"D x 31 or 34"H
- Double: 80.5"W x 38.25"D x 31 or 34"H
- Durable aluminum construction
- Tough powder coat finish
- Rugged phenolic top
- Storage shelf
- Graphics package: includes custom graphics on the 2 ends of the table
- Available in Single, Double and Custom Configurations

Model Shown:
A4119

CARTS & CABINETS

STOR-EDGE™ MULTI-PURPOSE CARTS

Our custom-built Stor-Edge™ Multi-Purpose Carts keep weights, resistance bands and other tools and equipment at hands' reach. Available in several model options, each is crafted of solid wood or laminate and is made in the U.S. The Stor-Edge™ Multi-Purpose Carts come in many different configurations for a variety of uses and sit on casters for ease and movability.

All Carts Feature:

- Available in wood or laminate finishes
- Full extension glides on all drawers
- Black wire pull handles
- 110° Euro hinges on doors
- Weight racks and j-hooks provided where applicable
- 4" Heavy duty casters
- Cabinets ship fully assembled, except for casters

WOOD MODALITY CARTS

SMC-001
24"W x 18"D x 32"H

Stor-Edge™ Modality Carts

The mobility and size of our Stor-Edge™ Modality Carts make it easy for practitioners to bring instruments, supplies and even a writing surface right to each patient during treatment. The added height and width of our Stor-Edge™ Modality Deluxe Carts allow for even more storage options, without sacrificing ease and mobility. Stor-Edge™ Modality Carts are high quality carts available in wood or laminate with many configurations, designed to meet the needs of your practice.

Standard Features:

- Available in wood or laminate finishes
- Full extension glides on all drawers
- 110° Euro hinges on doors
- Black wire pull handles
- 2" Swivel nylon casters
- Carts ship fully assembled, except for casters

- Folded Table: 21.5"W x 37"L x 8"H
- Table weight: 46 lbs.
- Thoracic & pelvic drops
- 2" Multi-layer foam
- Black carry case

BASIC PRO

FEATURED BLOG: COLD LASER VS. ULTRASOUND

Both ultrasound and cold laser are treatment modalities commonly used in physical therapy, sports medicine, chiropractic and beyond. They are both used to provide a therapeutic effect on tissues of the body. Generally, they are used to ease pain, reduce inflammation, break down scar tissue and more.

Ultrasound

Ultrasound uses high-frequency sound waves through vibration to transmit thermal effects through the body's tissues. To avoid the risk of burns to the underlying tissue, the treatment head is kept in motion throughout the treatment. According to Dr. Turchin, M.A., D.C., because ultrasound is a form of heat therapy, it does not regenerate tissue or block pain like a cold laser can. It can soften tight connective tissues, but does not promote healing.

Laser Therapy

Cold laser (low level laser) is a non-invasive treatment which uses a non-thermal infrared light to reduce inflammation, increase joint mobility, stimulate healing and decrease both short and long term pain. Cold laser is used extensively for injury, pain management and musculoskeletal problems.

Low level laser therapy is used to treat a range of pathologies including:

- Arthritis
- Soft tissue injuries
- All types of trauma
- Wounds and fractures
- Chronic and acute pain
- Depression and anxiety
- Nerve problems
- Side effects chemotherapy

One of the biggest differences between cold laser and ultrasound therapy is that ultrasound creates heat and cold laser does not. Because of this, ultrasound has more limits and contradictions of how it can be used. Cold laser (low level laser) therapy is fast, painless and more effective for long-term results on injuries and conditions than ultrasound.

APOLLO LASER

Desktop Laser System

Built for the busy clinic, our Apollo Desktop Laser Unit offers both convenience and power: You can customize your unit with a variety of powerful probes for deep tissue or more delicate treatment. This desktop unit features a user-friendly LCD display with probe status and treatment times.

Standard Features:

- 9"W x 11.25"D x 4.5"H
- 2 Channel desktop unit with choice of probe
- Heavy-duty construction for clinic environments
- Elevated face for easy viewing and control
- Two timers - treat 2 patients at the same time
- Probe holders on both sides of the unit that can accommodate two probes and both right and left handed practitioners

AP2-DT-5000-C

EPIDURAL POSITIONING DEVICE

EPD
(Epidural Positioning Device)

EPD

Patented in 2001, our Epidural Positioning Device is a landmark device designed by an anesthesiologist that positions patients correctly and comfortably by encouraging cervical, thoracic and lumbar flexion while maintaining a solid and stable position. Manually controlled chest, arm and head support ensures that patients of every body type and size can be accommodated and the back remains immobile during epidural placement. The EPD is suitable for use in operating rooms, labor and delivery suites, pain centers or anywhere epidural and spinal are performed.

Standard Features:

- Load capacity: for use with patients up to 600 lbs.
- 20.5"W x 30"D x 50-60"H
- White powder coat base
- 180° Adjustable face rest
- 6 Position adjustable arm rest
- Arm rest size: 16.5"W x 10"D
- Arm rest adjustment: 32-43" from the floor
- Interchangeable torso cushions (1 flat and 1 elevated)
- Torso cushion size: 8"W x 8"H
- Torso cushion adjustment: 5.5-10"
- Includes 1 Box (50) Sani-Cover® Fitted Disposable Face Rest Covers

PATENT PENDING
E-EPD
(Electric Epidural Positioning Device)

E-EPD

Based on a design by an anesthesiologist, the E-EPD positions patients correctly and comfortably by encouraging cervical, thoracic and lumbar flexion while maintaining a solid and stable position. A new curved design, for use with patients up to 600 lbs., accommodates patients of a variety of body sizes and weights. Electronic controls adjust the E-EPD to the correct height and foot position for each patient, while the easy mechanical lock and release system makes chest, arm and head adjustments quick and effortless.

Standard Features:

- Load capacity: for use with patients up to 600 lbs.
- 28"W x 29"D x 50-60"H
- White powder coat base
- 180° Adjustable face rest
- Prepositional pillow for use during cervical, lumbar and thoracic placement
- Adjustable arm rest, foot rest, and torso support
- Arm rest size: 21"W x 15.5"D
- Arm rest adjustment: 6"
- Torso cushion size: 6.25"W x 5.75"H
- Torso cushion adjustment: 6"
- Single hand control adjusts both midsection and foot rest
- (2) Rechargeable batteries last up to 100 cycles each
- Medical grade profile locking casters
- Black upholstery
- Includes 1 Box (50) Sani-Cover® Fitted Disposable Face Rest Covers

CLINICAL ACCESSORIES

Rolling Stools

Our Rolling Stools combine comfort with control thanks to a 3" deluxe seat cushion, a five-star base (plastic or metal) with heavy-duty casters and pneumatic controls with multiple seat height adjustments.

BOLSTERS

What Do You Use Them For?

Whatever your patient's needs are, PHS Medical has a comfortable and practical bolster to get the job done with minimal interruption to your patient. Our bolsters are durable, easy-to-clean, and available in a variety of color options. Each bolster is a multi-purpose product that can be used to position ankles, knees, or neck. Our bolsters are hand upholstered and custom produced. Available in multiple sizes, PHS Medical's bolsters are ideal for providing comfortable support for your patient.

Standard Features:

- Made from high density foam and durable vinyl
- Zipper closure
- Bolster pillows provide support for ankles, knees, and neck
- Available in multiple sizes and colors

Logo Rugs

Logo Rugs add the perfect finishing touch to any indoor facility. The rug is constructed with static dissipative 100% nylon carpet bonded to 100% premium rubber for superior grease and oil resistance for years of worry-free service.

Standard Features:

- Indoor applications only
- Permanently printed, plush nylon surface
- 100% Nitrile rubber backing for slip/skid resistance
- Fully launderable
- Choose from 150 colors (up to 25 colors per rug)

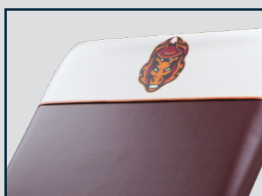

Smart Step Wellness Mats

Our line of high-performance Wellness Mats deliver the comfortable support you need to help while you work, play or exercise. Each mat features extra-durable construction, non-slip tops and bottoms, and an easy-to-clean, antimicrobial surface.

Standard Features:

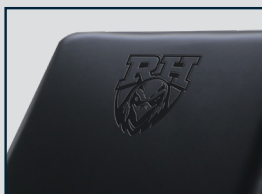

- Unmatched comfort and support
- Gradual edges will never curl
- 99.99% Anti-Microbial
- Non-Slip top and bottom surfaces
- Will not separate, bubble, or delaminate
- Perfected and tested for over 10 years
- $\frac{3}{4}$ " SmartTech™ polyurethane technology
- 10-Year manufacturer's warranty
- Proudly made in the USA

COLORS & BRANDING

Logo Slip Cover

(LOGO COVER) The logo slip cover is a cost effective, removable cover that slips over the lift back/tilt cushion of your table, cabinet, or taping station. Logo slip covers are also easy to replace if your school or organization updates logos or colors. Only available on PHS Medical products.

Debossed Logo

(LOGO DB) The debossed logo is a popular branding option that creates a classic look in any space. There is a one time fee for the metal die used to deboss the logo, which can be used on future Athletic Edge equipment orders. Only available on PHS Medical products.

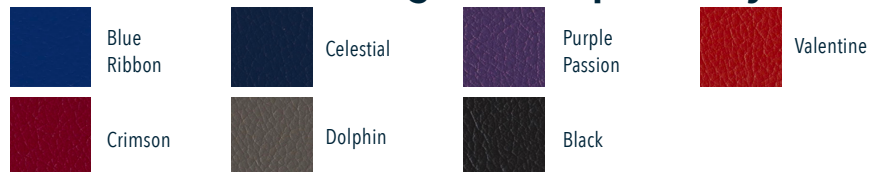

Color Edge Print Logo

(LOGO CP) The Color Edge Print logo is printed directly onto your upholstered cushion, and there are no limits on the number of colors printed in your logo. Only available on PHS Medical products.

DID YOU KNOW...

that PHS Medical and Armedica are a brand of Pivotal Health Solutions?

CREATE YOUR PIVOTAL PRACTICE

We are continuously developing and improving products so we can deliver unmatched value to our customers in both product and service. It's our priority to be the difference in providing **innovative care solutions**.

QUALITY

A lot of thought is put into each and every one of our products. Our engineers design our products to meet the ergonomic needs of clinicians and the comfort requirements of clients. Our skilled craftsmen and women build these products from materials that are meant to withstand the conditions that physical therapy requires. Our products are continually being updated to adapt to new needs and better serve the physical therapy community.

INTEGRITY

We are proud of our hard work and stand behind it in an honest and respectable manner by being open and ethical from all angles. We strive to be thorough in the entire purchasing process. If there is ever an issue or misunderstanding, we will work together to go above and beyond to make sure it is resolved and taken care of.

The World of Work is Changing.

Our mission hasn't. Our focus is on the way you work best, and we provide the resources you need to get work done. We created REV.247 to provide innovative products and solutions to help reinvent your workspace. How you work is just as important as the work you do. REV.247 provides creative products and options to help reinvent your workspace by focusing on how, where, and when you work to optimize your unique work habits. It's all about getting things done.

Based in Watertown, South Dakota, Pivotal Health Solutions serves as an industry-leading manufacturer of healthcare and wellness products, and our mission is to develop innovative furniture and equipment solutions that make a difference in the markets we serve.

REV247 proudly creates; Elevating Desks, Office Chairs, Stationary Tables and Mobile Workstations!

Pivotal Printing

can help you get noticed in all the right spaces. We are the smart choice for quality custom items and friendly customer service at the right price. We believe in providing high-quality, affordable options to meet a variety of print needs that can fit most budgets.
